

Do you need to revisit your onboarding information?

Often, it is challenging to fully internalize a lot of new information that is presented at once during a period of transition. This is your opportunity to take a glance back and revisit anything that you may have missed such as:

1. Do you have all the systems access that you need? (Epic, EpicCare, Cerner, My Hub, ULearn, etc.)
2. Do you need assistance with personal devices (Cell phone, lap top, e-mail access)?
3. Do you understand Epic (billing, coding, etc.)?
4. Do you know any special pay procedures related to call pay, PTO requests, etc.?
5. Are you fully familiar with your work locations?
6. Do you know your key contacts?
7. Do you understand your incentive plan?
